# WOOD CARRIAGE HOUSE CLEAR WESTERN RED CEDAR

*the perfect wood...no knots, no movement, extreme rot  
resistance...stain or paint grade*

*Clear Western Red Cedar has a very limited number of natural characteristics. It is specified when appearance of the highest quality is desired. It is a highly revered, durable wood that is naturally resistant to rot and decay. Our Clear Western Red Cedar doors include a select FIR structural frame. The doors are available in stain grade or paint grade options and includes a stainable interior skin.*

# WOOD CARRIAGE HOUSE RUSTIC WESTERN RED CEDAR

*the perfect wood...smooth, tight knots, more character... no movement, extreme rot resistance...stain or paint grade*

*Rustic Western Red Cedar presents more character than Clear Cedar with tight knots, burls, and other natural markings. It is a highly revered, durable wood that is naturally resistant to rot and decay. Our Rustic Western Red Cedar doors include a select FIR structural frame. The doors are available in stain grade or paint grade options, and includes a stainable interior skin.*

WOOD CARRIAGE HOUSE

# ARAUCO T1-11

*the highest quality ruff-sawn plywood with rot resistant composite  
or cedar rails and stiles...stain or paint grade*

*Our T1-11 doors include a structural FIR wood frame with ½" thick ruff-sawn plywood exterior face and ¾" face boards. The AraucoPly® series doors are available in three and four section tall designs. Available in stain grade or paint grade options.*

# WOOD CARRIAGE HOUSE EXTIRA COMPOSITE V-GROOVE

*vertical v-groove design...rot proof full composite exterior...paint grade only*

*Our Extira V-Groove doors include a structural FIR frame with a 1/2" thick smooth composite v-groove plywood exterior skin and 3/4" smooth composite face boards providing a fully rot resistant composite garage door that accurately simulates a v-groove skin. These doors are available in paint grade only.*

# WOOD CARRIAGE HOUSE SMOOTH COMPOSITE SKIN

*perfectly smooth composite exterior skin (flat recessed panels)...  
paint grade only*

*Our Smooth Composite Skin doors include a structural FIR frame with a 1/2" thick smooth composite plywood exterior skin and 3/4" smooth composite face boards, providing a fully rot resistant smooth skin recessed panel composite garage door. These doors are available in paint grade only.*

# WOOD CARRIAGE HOUSE SMOOTH COMPOSITE SKIN

*perfectly smooth composite exterior skin (flat recessed panels)...  
paint grade only*

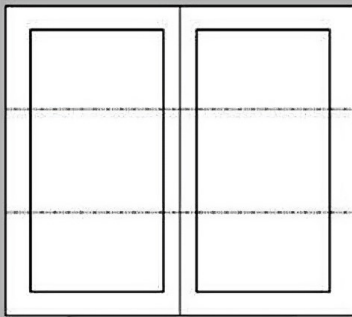

*Our Smooth Composite Skin doors include a structural FIR frame with a 1/2" thick smooth composite plywood exterior skin and 3/4" smooth composite face boards, providing a fully rot resistant smooth skin recessed panel composite garage door. These doors are available in paint grade only.*

# INTERIOR DOORS

## SLIDING BARN DOORS

*beautiful works of art that satisfy both aesthetics and functionality*

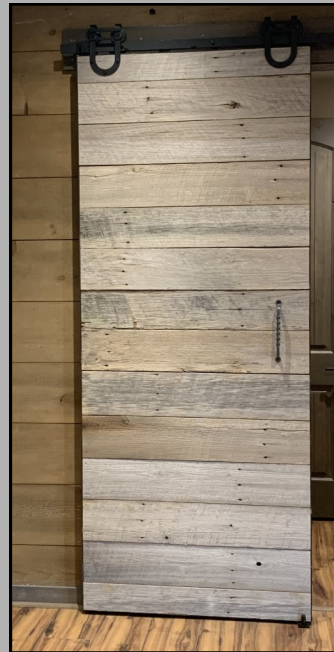

*Doorsmith Barn Doors are built to exacting standards using the highest quality materials available. Our skillful artisans create beautiful works of art and insure our barn doors meet the expectations of our clients. Our standard doors are available in eighteen models and offered in ten different species of wood. If you don't see the barn door you're looking for, Doorsmith can build just about any custom design desired.*
